AUTOMATIC COMPANY'S RECEPTION

Newark's New Telephone
System Inspected by
Hundreds

INTRICATE WORKINGS

Explained By Manager Charles
Hollander and Able Corps
of Assistants.

The Newark Automatic Telephone Company is today holding a reception at the local exchange and the plant was thronged with subscribers and friends who were anxious to examine the "workings" of one of the most intricate inventions of the twentieth century.

The elimination of the "third party" in the work of talking through space and the intricate manipulations of the mechanical power which enables a person desiring to converse with another some distance apart, to merely turn a small dial and thus accomplish the desire is filled with wonderment for many, and for this reason and in celebration of the completion of the installation of the new system, the Newark Telephone Company has today thrown open the exchange to the public.

From 10 a. m. to 5 p. m. were the hours assigned for the day and from 7 to 9 in the evening. Manager Charles E. Hollander and his corps of assistants conducted the visitors over the plant and explained to each one as nearly as possible the principle of the automatic exchange.

On the first floor of the exchange, which is located in the Arcade, are found the long distance booths, which are of marble, and each is equipped with an instrument, electric light and electric fan. Back of this is the bookkeeper's office and then the manager's office. On the second floor is the operators' board. Here are found the long distance operators, the information operators and the Farmer line. Across the hall is the rest room for the operators. This is nicely furnished in mission and is fitted up with a writing table and comfortable chairs.

Back in the hall is the big switchboard and here it is that the center of this great system lies. There are 1300 units here and 200 each in the branch lines, one of which is located in the north, east and west ends of the city. The wire chief's board is also located in the switch room and from here all tests are made. Mr. Tona Focht is superintendent of equipment.

The Newark Telephone Company now has over 3000 subscribers in the city and over 800 outside the city. And they have more contracts than they are able to fill at once.

Assisting Manager Hollander at the reception in greeting his guests were Miss Mae Jones, Miss Neva Moore, Miss Mae Blinn, Miss Lemch, Miss Alexander and Messrs. Hollander, Watkins, Focht and Follett. In the manager's office has been placed a large table and here are served punch and wafers.

All those interested in the company and the subscribers are invited to visit the exchange some time during the day or evening. Over 200 invitations were issued to prominent telephone men of the state and a large number responded.

STATE BOARD HAS ACCEPTED ARMORY

Newark, Sept. 11.—Colonel Reice of Napoleon, Colonel R. L. Barrer of Columbus and Major Charles Bell of New Lexington, members of the state armory board, were in Newark yesterday afternoon to inspect the \$20,000 armory just completed for Company C, Fifth Regiment, O. N. G. The board was much pleased with the armory, accepted it and turned it over to Captain D. H. Laning of Company G.

DECLARES TAFT A REACTIONIST

Los Angeles, Cal., Sept. 11.—Declaring that President Taft is a reactionist and does not represent the true sentiment of the Republican party, strongly urging consideration of Senator Robert M. La Follette as a candidate for the presidential nomination, attacking the last session of congress for attempting to pass general tariff revision laws and suggesting the formation of a new political party, Senator John D. Works yesterday told members of the Union League just where he stood on those questions.

"If, however, Taft secure the

nomination, Republicans will be confronted with a problem. It would do no good to turn Democrat. The Democratic party is more reactionary, and it is split wider than the Republican party ever was. Progressive Republicans, therefore, would be confronted with this alternative:

"To remain within the party and save it from defeat while working to purify and improve it, or, if they cannot bring themselves to vote for Taft, to join progressive Democrats who cannot support Wilson or any other candidate and form a new party."

Senator Works said he would choose to remain within the Republican party and work in conjunction with other progressives.

Senator Works strongly indorsed the woman suffrage amendment.

MURDERER OF KENTON GIRL KILLS SELF

Kenton, O., Sept. 14.—Cornered early today by a posse pursuing him as the murderer of Della Halsey, Jasper Newman shot and killed himself in a barn on the farm of his father five miles from Kenton.

The suicide followed the murder by five hours and was the culmination of an unhappy love affair which began when Newman, aged 25, went to work for George Halsey, the father of the girl, who was 22. Both Newman and Miss Halsey are children of prosperous farmers in this section of the state. Almost from the beginning the courtship was marred by frequent disagreements. After several months had passed the girl asked Newman to cease his attentions and she came to Kenton to take a position in a local bakery. Newman, however, refused to let her alone and he followed her here.

He entered the bakery last evening and tried to converse with the girl. He induced her to walk to the rear of the building with him and from there he dragged her out of doors. Two women who saw them thought they were scuffling in fun. As soon as they were out of sight Newman seized the girl by the throat and pressing a revolver to her breast fired three times. One bullet pierced her heart.

Newman fled just previous to the arrival of the police.

FOUR KILLED IN WRECK ON LAKE ERIE ROAD

Cleveland, Sept. 14.—Four persons were killed and more than a score injured in the wreck of a Pittsburgh and Lake Erie work train in this city last night. All of the dead and injured are foreign-born laborers, who were riding on a flat car bound for their homes when the engine and four cars jumped the track and overturned. The train crew, except the fireman, F. E. Maloney of Toledo, escaped injury. Maloney suffered a badly bruised hip.

The cars were smashed into a thousand pieces, burying a dozen of the men. Four of these, who have not been identified, were killed almost instantly. The others were taken to a hospital, where it was said two were fatally injured.

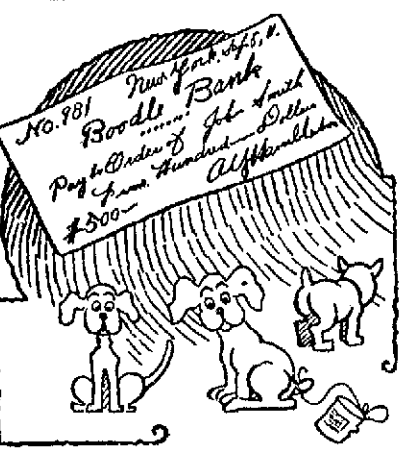

The wreck occurred on a new line and is supposed to have been caused by a spread rail.

SHOT OFF HIS SISTER'S HEAD

Marietta, Sept. 14.—Playing hide-and-seek, Raymond Berentz, aged 9 years, of Eight Mile, O., was unable to find his sister, so he procured a shotgun and went to look for her. When he found her he shot off her head.

Raymond and Goldie Berentz, the latter aged 13 years, were busy playing. Goldie hid and her brother was to try to find her. He sought her unsuccessfully and then went into the house, where he secured his father's shotgun. He called to her and she jumped up from behind a chair, and the boy, raising the gun to his shoulder, fired, shooting off her head. The girl died instantly.

AN EXTRA SESSION OF LAW MAKERS

Will Probably be Called
by Gov. Harmon by
December 1

TO REDISTRICT STATE

Representative Fulton Has Con-
ference With the Governor---
Congressmen at Columbus.

Columbus, Sept. 14.—Democratic members of the legislature are to caucus and reach an agreement as to what bills are to be passed preliminary to Governor Harmon's calling an extra session of the legislature, to convene the middle of November or Dec. 1 to gerrymander the congressional districts.

That is the plan of 10 of the 16 Democratic congressmen who conferred for two hours yesterday at the Neil House. They had been given to understand that Governor Harmon is willing to call the extra session if an iron-clad agreement is reached that no bills be passed except such as are approved by the Democratic legislative caucus and that the session shall not last more than ten days or two weeks.

So well in hand are the plans for a gerrymander that Representative William Duane Fulton of Newark, chairman of the house committee on federal relations, who was not invited to the conference and of course remained outside, said: "I am confident there will be an extra session." Representative Fulton is one of the members of the legislature who has discussed the extra session proposal with Governor Harmon.

Members of the congressional delegation admitted that the Democratic national committee plans to bring about gerrymanders in every state in which there is a Democratic legislature, in the hope of electing another Democratic house a year from November.

The Ohio congressmen here yesterday thought the redistricting was ample and sufficient cause for calling the legislature back to Columbus. Congressman Robert Bulkley of Cleveland said: "We think that is reason enough, but if Governor Harmon and the members of the legislature think other purposes should be included in the call, that is for them to say, not us."

Other reasons are to be paraded in the forefront, if the call is issued. The consideration that it would be unprecedented to call an extra session at the expense of the taxpayers for a purely partisan purpose was discussed by the congressmen. It was thought best to have other legislation included in order to widen the scope and give the taxpayers some return for their money while making sure of their own cherished gerrymander.

Two alibis for the gerrymander will be the remedying of defects in the Cresser initiative and referendum law and the Smith 1 per cent law. The provision of the Cresser act for holding up all ordinances of council for 60 days and the prohibition in the Smith law of making semi-annual appropriations until the collected taxes are in the treasury are causing or will cause embarrassment and confusion.

The need of amendments to these laws and perhaps of doing over again other jobs which show bad carpentry by the legislators is to be set forth as co-reasons with the gerrymander.

The congressmen were informed that Governor Harmon would not help them unless there was a prior agreement with the Democratic members of the legislature that they would adjourn and go home after enacting the gerrymander and a few Harmon bills. To insure this the Democratic legislators are to be required to commit themselves individually and collectively before the governor.

NOTHING NEW IN STRIKE AT WEHRLE PLANT

Concerning the strike of the mounters at the Wehrle stove works, reports from the seat of war are to the effect that there is nothing new in the situation. The men are still out. Many rumors, some of them of a very sensational nature, are floating around today, but in the majority of them there is absolutely no foundation. The men are holding meetings at regular periods and are conducting themselves in a very gentlemanly manner.

CHINESE WARSHIP HAI CHI, NOW ON VISIT TO AMERICAN PORTS; ADMIRAL CHING PIH KWANG AND HER BOY SCOUTS

New York, Sept. 11.—The Hai Chi, the first Chinese warship that ever entered American waters, is now lying in the Hudson river. Rear Admiral Ching Pih Kwang is in command of the vessel. Most of the officers speak excellent English. An aid of Rear Admiral Leutze, commandant of the Brooklyn navy yard, and Commander Cooper of the navy yard visited the vessel to welcome the foreigners. Later the

Chinese admiral went to the navy yard to pay his respects to Rear Admiral Leutze. On Thursday Rear Admiral Ching will go to Beverly to pay his respects to President Taft. The Hai Chi will leave here in about a week and visit Philadelphia and other ports on the Atlantic coast. A body of Chinese boy scouts on board the Hai Chi attracted considerable attention from visitors to the craft.

WETS HAVE WON OUT IN MAINE ELECTION

Augusta, Me., Sept. 11.—According to complete returns given out semi-officially at the state house at 1 o'clock this afternoon the wets have won their fight for the repeal of the constitutional prohibitory amendment by 131 votes. The vote as announced is: Wet, 60,517; dry, 60,383.

Portland, Me., Sept. 14.—"It's the old army game, which shall be the vote under?" That is just about the way every voter in the state of Maine feels today on the question of whether the constitutional amendment prohibiting the sale and manufacture of intoxicating liquors is going to stand or fall as a result of Monday's voting. The last time the votes were counted, somebody said there was a majority of 44 for the wets. This was telegraphed throughout the state. Before the figures reached their destination, however, other figures were started over the same wires, giving the wets a victory of 500. It is now announced that no figures will be considered official until Gov. Plaisted arrives this afternoon and starts an official count.

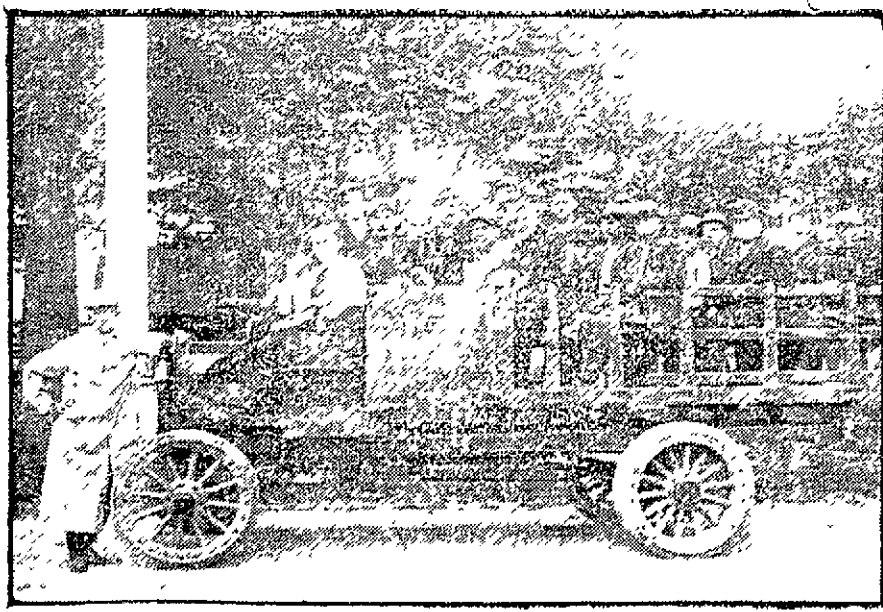

MAINE'S GOVERNOR TO CANVASS VOTE

Spring Lake, N. J., Sept. 14.—Governor Plaisted of Maine, who was much disgruntled over the outcome of the election in his state for the repeal of the prohibition law, left the Conference of Governors in a hurry for home last night. He said he was not yet satisfied the election had been lost to the dries.

He said he would probably call an early meeting of the Board of Canvassers to determine definitely the vote.

"Under the law there are two sets of returns, one filed with the secretary of state and opened immediately by the governor and council," said the governor. "The latter is authentic, but sometimes it takes two weeks to get complete returns. We have to send for them in some instances, and there are other delays which I believe my presence in Maine might help to alleviate or avoid."

NEWARK MADE TRUCK.

The Blair Direct Drive Automobile truck, recently built at the Newark Machine Company's plant, has just made a successful trip to Columbus, Springfield and Dayton. On Wednesday the truck carried a load of 5000 pounds over 75 miles of country roads at the rate of 15 miles an hour. The Blair truck which is built along altogether new lines, is attracting widespread attention and favorable comment from men who know a good piece of machinery when they see it.

JOHNSON CONFESSES THE CRIME

Murdered Seven Year
Old Girl and Threw
Body in Lake

GETS LIFE SENTENCE

Fiend Feared Mob Violence and
Suspense Became Too Great---
Rushed to Pen.

Madison, Wis., Sept. 14.—John, otherwise known as Dogskin Johnson, last night confessed to the abduction and murder of little Annie Lemberger, the 7-year-old child whose body was found in Lake Monona Saturday morning last. He was immediately sentenced by Judge Donovan to life imprisonment.

A few minutes after his sentence, Johnson was taken in an automobile by Sheriff Andrew Brown and a deputy and whisked away through side streets and across the country to the state prison at Waupun. The greatest secrecy was maintained because of fears that Johnson might be lynched.

Johnson was taken into custody Saturday morning, but after being questioned he was released at noon. The officers had him under surveillance all the rest of the day and in the evening brought him in again.

The man was taken into court yesterday pleaded not guilty and placed under a \$10,000 bond, the preliminary examination being set for September 25. The prisoner was then taken back to his cell and in a frightened manner he hurried on ahead of the officers. Toward evening the turnkey was called by Johnson and was told by the prisoner that he wished to make a confession. In a few moments the prisoner was before Judge Donovan where he admitted the crime.

Abandoning his sham of insanity, Johnson paced restlessly back and forth in a cell, waiting anxiously for the first sounds of an angry mob. The Bible, which he had been perusing since he was placed in jail, was thrown carelessly in the corner. Finally the suspense became too great.

In the presence of Chief of Police Shaughnessy, District Attorney Nelson and Turnkey Foye, Johnson related that the deed was the result of a sudden impulse. He had watched through the bedroom window the little girl and her sister undress at bedtime on different occasions, and on the fateful night, at about 10 o'clock, shortly after the children had closed their eyes in sleep, he raised the sash and snatched little Annie from the bed, dragged her through the window, knocked her on the head with his fist, rendering her unconscious, so there would be no outcry. He then took her to the railroad bridge and, after beating her on the head until life was extinct, threw the body into Lake Monona.

Testimony at the inquest was conflicting in that one physician was of the opinion that he child had been criminally assaulted before being thrown into the lake, while another expressed an opposite view.

Johnson said he did not want to make a detailed confession now, because he wanted to be on his way to Waupun to avoid mob violence. He said he would make a written confession after he had been safely lodged in prison.

He has already served a term in the penitentiary and several years ago he was taken to the Mendota Hospital for the insane, after he had assaulted a little girl at Brownsville, Wis.

Life imprisonment in the state of Wisconsin is the maximum punishment meted out to murderers.

MAN INJURED IN EXPLOSION DOING NICELY

Edward Grady, who had one of his legs badly shattered by the cylinder head of the peanut roaster which blew up some time ago, is reported as getting along finely at the Sanitarium. Another examination was made of the injured leg Thursday morning by the attending physicians, Drs. Cosner & Sapp, and they decided that the leg could be saved.

AVIATOR WARD IS ONLY SHORT WAY FROM HOME

Paterson, N. J., Sept. 14.—Aviator Jimmy Ward's luck improved but little today when he resumed his attempt to fly from the Atlantic to the Pacific coast for the \$50,000 prize. For the fourth time today he put his machine into the air at 11:30 o'clock in South Field, N. Y., and at noon he sailed over Greycourt. This is but 55 miles from New York, which is all he has to show for his day and a half of flying.

Middletown, N. Y., Sept. 14.—At noon today Aviator Ward landed here and announced that he would eat his lunch before proceeding. He is but 68 miles from New York.

ATTY. GEN. HOGAN RULES AGAINST THE PRINTING OF BOOKS

Columbus, Sept. 14.—If the members of the 79th general assembly of Ohio want their pictures to appear in cloth bound books with neat little autobiographies bringing out their good points they will have to dig down in their jeans and pay the printer themselves. Attorney-General Hogan today knocked out the joint resolution of both houses, passed May 31st, 1911, which authorizes the preparation of a cloth bound book by the state printer containing a list of members, rules, standing committees and "such other matter as the ones in charge may deem appropriate." Hogan sees a sleeper in the last sentence and holds that the statutes limit the state printer to preparing documents, books and so forth "in pamphlet form" and therefore that the proposed book is illegal.

The resolution provided for the printing of 5,000 copies, 5,000 to be distributed in the senate and the remainder in the house.

POSTOFFICE IS ROBBED.

Wellston, O., Sept. 11.—Gaining entrance through the ceiling, thieves drilled and shot the safe in the postoffice here, but secured nothing.

COST \$2 AND THREE CENTS.

Coshocton, Sept. 14.—Thus far only two candidates have admitted that their nominations cost them anything. Thomas McCandless, for township trustee, spent \$4., and Hiram Miller, for justice of the peace, spent three cents.

THOUSANDS SEARCHING FOR KIDNAPER

Snowflake, Manitoba, Sept. 14.—At bay along the international border today Henry Wilson, kidnaper of Eleanor Gladys Brice, shot and seriously wounded one of his pursuers. Keeping up a constant fire with his gun, Wilson held back the rest of the posse, crawled into the underbrush and escaped. With dogs trailing him, the posse then broke up into small detachments and are searching the whole section of the country. A thousand men have taken up the hunt on the Canadian side, while in the United States 500 others have cut off the possibility that Wilson may work his way into North Dakota and escape.

A LUXURIANT GROWTH OF HAIR

DOES NOT FOLLOW NEGLECT OF THE SCALP.

Aside from combing it when they think necessary many people give no attention whatever to their hair. Then when the hair begins to fall out it never occurs to them that their trouble is the result of personal carelessness.

An occasional application of Newbro's Herpicide will not only prevent loss of hair, but permits a luxuriant growth.

Herpicide kills the germ that causes dandruff and to this germ most hair losses are attributable. It keeps the scalp clean and free from dirt, allowing the hair to grow unhampered by accumulation of dandruff.

Newbro's Herpicide is sold by all druggists and its manufacturers have such confidence in its germ destroying power that they authorize all druggists to guarantee the one dollar size bottles to do as claimed or money refunded.

Applications may be obtained at good barber shops.

Send 10c in postage for sample and booklet to The Herpicide Co., Dept. R., Detroit, Mich. W. A. Erman & Son, special agents.

WILL OFFER FRANCHISES OF CENTRAL LEAGUE

South Bend, Ind., Sept. 14.—Three Central League franchises will be offered for sale following the meeting of the directors of that organization at Dayton, O., next Monday. The franchises include Newark, Evansville and Wheeling. The league's season this year was the most disastrous in its history.

WOLGAST-MORAN FIGHT PICTURES AT THE EMPIRE

Charles Garfield, a Cleveland boy, is in Newark, arriving this morning with 2000 feet of film showing the great Wolgast-Moran fight at "Prize". The pictures will be shown at the Empire, south side of the square tonight and Friday. Mr. Garfield has sole control of the film and has been exhibiting the pictures throughout the larger cities where they are pronounced the best pictures of a prize fight ever put on exhibition.

According to press notices given by sport writers in the various cities where the film has been exhibited, the pictures are remarkably clear and distinct. Every detail of the great fight is shown from the time the great mass of people began to arrive at the arena, until the knockout blow was struck by Wolgast.

Besides this, interesting scenes are shown in the training quarters of the two fighters, showing where they prepared themselves for the gruelling contest.

Mr. Garfield lectures throughout the run of the film, explaining to the spectators the interesting details of the bout. His lecture helps to make the exhibition easily understood even to the man not familiar with the art of boxing.

The film runs for nearly an hour as very move in the rapid arena is shown from the arrival of the fight through the introduction of the principals and seconds and other officials, to the last blow in the final round.

This film has been exhibited to capacity houses in Cleveland, Toledo, Akron, Canton, Steubenville and other places and every patron was highly pleased with the entertainment.

Mr. Garfield was at the ring-side while the pictures were being made, and is familiar with every move of the fight. Local fight fans will be given an opportunity this afternoon and evening to see these pictures. The engagement lasts through Friday.

EXTRA SESSION

(Continued from Page 1.)

error acts. A gentleman's understanding will not be accepted. A caucus will be called to determine the scope and duration of the session and only in case this is done and done satisfactorily to the governor will he summon the extra session.

The congressmen adjourned to meet again before or at the time of the caucus. The ten conferees issued the following statement, which means only that they will leave to the legislature the framing of the gerrymander bill:

"Any recommendation of a specific plan of redistricting the state is clearly beyond the jurisdiction of the congressional delegation, and it is the sense of the meeting that a committee consisting of Messrs. Ashbrook, Anderson, Anshberry, Goeke and Bulkley, be selected to wait upon Chairman Dean and Fulton of the federal relations committees of the state legislature and advise them of the action taken. This committee is authorized to represent the delegation in any advisory relation suggested by Governor Harmon and the legislative committee chairman mentioned."

It was asserted the 10 congressmen were willing to take pot luck on whatever gerrymander bill the legislature could agree upon. No bill was discussed at the conference, but the members have copies of a bill which was drafted by Representative Fulton.

It comes nearer satisfying all the congressmen than any of those over which they wrangled with the result that no bill was passed in the five months of the regular session.

It makes 12 Democratic districts and 10 Republican districts. The legislature is to be called at public expense to pass it on the ground that the present districts are unfair. This Fulton bill is based on the Taft vote. Taft carried Ohio approximately by 70,000. Under the apportionment act of congress, a district should have 211,000 inhabitants. As ordinarily calculated, that means 70,000 voters to a district. On the Taft vote, the Republicans are entitled to one more district than the Democrats.

The Fulton bill, however, gives the Democrats two more than the Republicans, or three more than the Democrats are entitled to.

While the congressmen plan to tie the hands of the Democratic majority of the legislature, being suspicious of what they might do under a new lease of power after seeing them perform for five months, alarm was expressed by Democrats who watched yesterday's conference lest the extra session would be the means of putting the party in the hole.

It was not recognized that a minority might break away and combine with the Republicans to prolong the session for various purposes. It was predicted that a bill would be introduced the first day. It also was said that the bipartisan combination of members and politicians, known as conspiracy of defense to prevent further bribery exposures by the grand jury, could resume their work of interfering with the grand jury, which was stopped by the adjournment of the regular session.

The conferees were Congressmen Allen, Ashbrook, Bathrick, Bulkley, Calpool, Cox, Francis, Post, Whitacre and White.

Attorney General Hogan yesterday took the ground from under one of the alibis for the gerrymander, which is the real purpose sought to be accomplished by the extra session, namely, the crying need of amending the Crocker law.

In an opinion he held that it was only ordinances for new projects which must be held up for 60 days and that ordinances for salaries and other ordinary and regular expenditures would continue to go into effect at once. His interpretation of the law removes the claim that to amend it at once is a public emergency justifying the convening of the legislature.

HON. W. D. FULTON SAYS THE SESSION WILL BE ECONOMIC

Hon. W. D. Fulton was seen by an Advocate representative Thursday morning, and stated that in all probability the extra session would be called some time before the first of December.

Mr. Fulton stated that he had discussed the matter with Governor Harmon and that it was the governor's wish that the session be short and that it be made as economical as possible. Under no other conditions would the session be called.

"There will be no additional expense as far as salaries of members are concerned," said Representative Fulton, "and only those legislative employees who are absolutely essential to the session will be called upon to report for duty."

A congressional committee consisting of five members, of whom Congressman Ashbrook of this district is one, has been selected to represent the Ohio congressional delegation in congress, and they will meet with Messrs. Fulton and Dean of the federal relations committees of the state legislature to offer their services in any advisory capacity to either the committee or Governor Harmon.

Gray Hair Makes You Look Old

Use Wyeth's Sage and Sulphur and Your Gray Hair Will Quickly Vanish.

Gray hair is a mark of age and nothing that can be said as to its early will affect the disadvantages of this mark of age set upon your brow.

Wyeth's Sage and Sulphur Hair Remedy darkens the hair and restores it to its youthful beauty. Our grandmothers and their grandmothers before them used sage and sulphur for darkening their hair. Nothing has ever been found more effective for this purpose than these two time honored remedies, but Wyeth, a modern chemist, has combined the two with other ingredients which make a delightful dressing for the hair, and which not only removes every trace of dandruff, but promotes the growth of the hair. It also stops the hair from falling out and makes it beautiful.

All druggists are authorized to refund the money if it fails to do exactly as represented.

Don't neglect your hair and don't resort to old-time hair dyes. Get a bottle of Wyeth's Sage and Sulphur from your druggist today, and notice the difference in your hair after a few days' use.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists.

SWIFT TENNIS PLAYERS BEST THE ENGLISHMEN

New York, Sept. 11.—Barring New Zealand, America can today lay claim to having the swiftest tennis players in the world in the champions Bill Barnes and young Maurice McLoughlin. They administered a sound thrashing to the best England could send over. Dixon and Lowe, and it won't be long before they will make New Zealand holders of the Davis cup hustle to retain the trophy.

GERTRUDE PEEVED

Most Ills of Life

come from errors in diet, from too little exercise or from the mistakes we commit without thinking of consequences. These sicknesses may be slight at first, but they hinder work, prevent advancement or bring depression and spoil enjoyment. What is worse, they lead to serious physical disorders if not checked in time; but

A LITTLE DANDERINE WILL MAKE YOUR HAIR LUSTROUS, SOFT, FLUFFY, ABUNDANT

Get a 25 Cent Bottle Now and Forever Stop Falling Hair, Itching Scalp and Dandruff

If you Wish to Double the Beauty of your Hair in Ten Minutes surely Try a Danderine Hair Cleanse

Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a Danderine hair cleanse. Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt and excessive oil and in just a few moments you have doubled the beauty of your hair.

A delightful surprise awaits particularly those who have been careless, whose hair has been neglected or is scraggly, faded, dry, brittle or thin. Besides beautifying the hair at once, Danderine dissolves every particle of dandruff, cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair.

Try as you will, after one application of Danderine you cannot find any dandruff or a loose or falling hair, and your scalp will never itch, but what will please you most will be after a few weeks' use when you will actually see new hair—fine and downy at first—yes—but really new hair sprouting all over the scalp. Danderine makes the hair grow long, heavy and luxuriant and we can prove it. If you care for pretty, soft hair and lots of it surely get a 25 cent bottle of Knowlton's Danderine from any druggist or toilet counter, and just try it.

Salmon Loaf. Open and turn out a pound can of salmon, discarding the skin and bones and finely flaking the fish with a fork. Add one cupful of fine stale bread crumbs, two tablespoonfuls of melted butter, one tablespoonful of chopped parsley, one tablespoonful of lemon juice, two well beaten eggs, four tablespoonfuls of cream, salt and pepper to taste. Turn into well buttered mold, stand in a pan partly filled with warm water and place in a moderate oven for about 40 minutes.

Sanity is Self-Improvement.

She had read an article about being young with your children, and so she had let the youngsters invite in their young friends, and she was playing games with them. She was going into them with all the enthusiasm she could muster, because she wanted to do the right thing by her children. But she had to confess to herself, that it was a great bore and in the bargain, exceedingly wearisome.

A practical neighbor leaned over the fence and asked what she was doing. She stopped playing Hide and Seek long enough to explain. The children kept on with whoops of merriment.

The practical neighbor said, "You're foolish. You are wearing yourself out, and you are wasting time, and the kids would have much more fun without you."

Lots of women are, like this anxious little mother, wearing themselves out in a vain effort to be progressive. They are terribly ambitious to do the right thing, whether it is to keep themselves in touch with the times, or to be the right sort of wife, or to keep house in the most up-to-date way. The hue and cry to be all that they ought to be has got them on the run. And they are running so fast and furiously, that they have neither time nor energy to see whether they are going, nor any of the beautiful spots they are passing by.

Somebody tells them they should join women's clubs, and straightway they join, and rush frantically around gathering information for innumerable papers they must prepare.

Or they read somewhere how necessary it is to keep one's physical appearance up to par, that it is a duty they owe themselves to be dainty and well groomed, and straightway they wear themselves out exercising and massaging and doing beauty stunts.

It is all well intentioned. And they are in the right in their efforts. But they defeat the very ends they are trying to accomplish by going about it in such a frenzied fashion, or overdoing it. The trouble lies not in the effort itself, but in the fact that they have no standards of their own as to what they ought to do, no inner voice to tell them what and how much. They are guided entirely by the voice of others. And they run hither and yon, and faster and faster, as the world says, "Do this" and "Do that."

Women who are anxious to keep in step with the march of progress, but who are wearing themselves out in doing it, should pause and study themselves a bit. They should see what it is they most need, and how much they can stand. Then they should start in to accomplish the possible. They will find that they will no longer be harried and worried and worn out, with little really to show for their efforts, but that the improvement they seek will be theirs, and the current of life will flow smoothly and serenely and not be whipped into eddies and whirls.

EVENINGS ARE BECOMING COOL AND CHILLY

Did you dig into the pile of winter bed clothing last night and drag out the warm downy comforts to make your night's sleep more comfortable and pleasant? Most of us did and you might as well admit that you joined the procession from the bedroom to the clothes closet where the housewife carefully placed the winter bed coverings last spring.

Yes, it was quite chilly. In fact the heavy comforts did not come amiss. Yet after the bed had been trimmed to conform with the state of the temperature, it was a fine night to sleep and most of the Newark people made the best of it.

At 7 o'clock this morning the temperature in front of the Central Fire station registered 49 deg. Fahrenheit. That is only 17 degrees above freezing and it will not be long before thin sheets of ice will cover the water basin in the chicken yard.

Hay fever sufferers are watching the downward trend of the thermometer with much interest. They are up bright and early to see the condition of the roofs and ground, anxious to catch the first indication of frost.

THE COST OF LIVING.

The real cost of living is not reckoned in dollars and cents—its paid for in physical energy and the compensation in physical and mental comfort. Many women do not enjoy life because they are overworked. Consequently labor-saving devices are the most welcomed of all inventions. Prominent in this class is Hewitt's White Easy Task soap, for kitchen and laundry use. It does half the work itself, kills the germs, does not harm the hands or fabrics, and makes an easy task of household drudgery.

The Tenderfoot Farmer

It was one of these experimental farmers, who put green spectacles on his cow and fed her shavings. His theory was that it didn't matter what the cow ate so long as she was fed. The questions of digestion and nourishment had not entered into his calculations.

It's only a "tenderfoot" farmer that would try such an experiment with a cow. But many a farmer feeds himself regardless of digestion and nutrition. He might almost as well eat shavings for all the good he gets out of his food. The result is that the stomach grows "weak" the action of the organs of digestion and nutrition are impaired and the man suffers the miseries of dyspepsia and the agonies of nervousness.

To strengthen the stomach, restore the activity of the organs of digestion and nutrition and brace up the nerves, use Dr. Pierce's Golden Medical Discovery. It is an unfailing remedy, and has the confidence of physicians as well as the praise of thousands healed by its use.

In the strictest sense "Golden Medical Discovery" is a temperance medicine. It contains neither intoxicants nor narcotics, and is as free from alcohol as from opium, cocaine and other dangerous drugs. All ingredients printed on its outside wrapper.

Don't let a dealer deceive you for his own profit. There is no medicine for stomach, liver and blood "just as good" as "Golden Medical Discovery."

HEALTH HINT FOR TODAY.

Tonsils and Adenoids.
Enlarged tonsils and adenoid
growths are symptoms of a car-
tarious condition of the body due
to faulty diet and cutting them
away does not remove the cause.
asserts a leading practitioner,
adding that the extripation of
tonsils, as of any other neces-
sary organ, always is followed
by bad results. The tonsils
should never be removed, he
says, unless they have been per-
mitted to deteriorate so far as to
become more of a menace to
health than would be their re-
moval. Throat specialists' op-
inions on this subject differed at
a meeting in Philadelphia, and
a committee was named to make
an exhaustive report on the ques-
tion in 1912.

It appears that American tariff-fed
monopolies, apprehending the inevi-
table consequence to follow the ratifica-
tion of the reciprocity agreement in
the gradual breakdown of the protec-
tion system, are putting up money to
defeat ratification in Canada. Of
course such action is in the nature of
an insult to the Canadian electorate;
but it was from the outstart shrewdly
considered more easy to buy a protec-
tive victory from a comparatively
small than from a much larger con-
stituency. Happily all the later inside
news of the reciprocity fight in Can-
ada indicates the success of the Laurier
Government in the contest for recipro-
city.

The announced determination of
United States Senator Joseph Weldon
Bailey of Texas, to forsake the busi-
ness of law-making at the end of his
term in 1913 and to commence instead
the practice of law in New York city
will be hailed with gratification
throughout the country. Mr. Bailey
has undeniable talents, coupled with
ungovernable temper. No pretty
shrew in petticoats ever made worse
wreck of her comeliness and her op-
portunities than Joseph Weldon has
done in the arena of politics. He de-
clares that his determination not to
stand for re-election to the Senate is
irrevocable. It will be a fortunate
thing for the Democratic party and
for the country at large if he shall not
change his resolution.

SOME FACTS PERTAINING TO MAINE'S PROHIBITION CONTEST

One of the interesting features of
the Prohibition contest in Maine which
resulted in such a close vote on Mon-
day, is the fact of the length of time
that laws have been on the statute
books of that state to prevent the
traffic in intoxicating liquors. Back
in 1831 Maine enacted a law to prohibit
the liquor traffic that attracted consid-
erable attention throughout the
country.

The same year, 1831, the people of
Ohio voted on their present constitu-
tion, and a license clause to regulate
the liquor traffic was submitted sepa-
rately. The license question became
an agitated issue in portions of the
state, the opponents of license making
reference to the "Maine liquor law" to
strengthen their arguments.

Another element that aided to defeat
license in Ohio on that occasion con-
sisted of those who favored unlimited
traffic and opposed any lawful regula-
tion whatever. It was a case in which
opposite extremes met in a common
down by a small majority.

Then in 1853 the temperance issue
was raised in Ohio and in some por-
tions of the state there were heated
local campaigns for the election of

members of the legislature who would
vote for the enactment of a measure
similar to the "Maine liquor law,"
which was then extolled by some Ohio
agitators as a model statute for the
prohibition of the liquor traffic. But
the effort failed and Ohio did not fol-
low Maine's experiment.

These facts show that while the
present law in force in Maine was
passed in 1857, the state had previous-
ly had six years statutory experience
against the liquor traffic, making a to-
tal of 60 years of legal test of the sub-
ject up to the present time. Maine's law
of 1857 was reinforced by the constitu-
tional amendment of 1884, which was
adopted by the decisive majority of
45,988.

Considerable newspaper comment is
made over what is termed a curious
phase of the campaign in Maine that
the friends of prohibition found their
most effective allies among illicit deal-
ers who make profit by evading the
law, outside wholesalers and mail or-
der houses who supply contraband
liquors, and the express companies
who do the carrying.

This resembles Ohio's experience in
1851.

TOO VERBOSE.
"Here," said the editor, "you use too
many words. You say, 'He was poor

he was honest."
"Again you say, 'He was without

say that he was without money."

GOING TO LAW.

Old Wax and I lived side by side and never had a row, until one
day he lammed the hide of my old brindle cow. He said she ate a
suit of clothes that hung upon his line, and so I luffed him on the
nose and he soaked me on mine. We owned our homes, were out
of debt, had money in the bank, that day he lammed my brindle pet,
and I gave him a spank. A while we stood around and cursed and
wagged the fluent jaw, until, surcharged with deep disgust, we
turned and went to law. Oh, that was hum and beastly sport! Our
lawyers, smooth and deft, conveyed the case from court to court,
and taxed us right and left. Now at the poor farm Wax and I put
in our fading years; I lean on him and heave a sigh and he hursts
into tears. Sometimes we ramble up the road, where once we did
our biz; a lawyer lives in my abode, another lives in his. Then to
the poorhouse back we go, and seek our couch of straw, and think
of joys we used to know before we went to law.

NOTICE TO PUBLIC

To the owners of money, buildings,
and loan stock mortgages, bank
deposits and other intangible prop-
erty:

Believing that there may exist
some misunderstanding in regard to
the opportunity of property, we take
this opportunity to state a few
things that may set some right in
this matter.

We do not desire to do any one
any harm, but are anxious that the
tax question be well understood and
that the burden of taxation be
equally distributed. Some have the
idea that bank deposits are exempt,
but this is wrong; neither are we
allowed under the laws to offset our
debts with money on hand or in
bank. Building and loan stock is
also taxable and should be listed by
the person owning the same. Bank
stock is taxable, but this is usually
paid by the bank. In fact, nearly all
kinds of stock of taxable, but in
many cases the tax is paid by the
corporation, as in the case of banks.
If you own stock in any concern, find
out whether the corporation or your-
self should pay the tax.

We have already prepared a list
of the mortgages held by persons in
this county and will commence work
on this list before long. Investiga-
tions will also be made in regard to
other property. It should be re-
membered that these investigations
are continuous throughout the year
and from year to year. In the event
discoveries are made as to property
not listed, the auditor is required by
law to add a penalty of 50 per cent
and charge tax on the total. If an
individual is found to have failed to
list one thousand dollars that he
should have listed, the county must
collect an amount of tax one and one
half times as great as if it had been
listed by the owner himself. If this
discovery should not be made for
five years the charge for each of the
five years preceding the discovery
must be one and one half times as
great as if it had been properly listed
at the proper time by the owner.

All real estate, together with all
other tangible property, has been as-
sessed at its true value in money,
and we believe that you will agree
with us that it is only fair and just
that all property should be treated
the same.

Another matter needs explanation.
That is the fact that when the per-
sonal assessors did their work last
spring the one per cent tax law had
not passed the legislature and peo-
ple were not certain as to whether
we were to have a low rate of taxa-
tion, but that is no longer in doubt.
The rate will not be more than ten
mills in any township; very few will
have a rate of over eight mills. And
but very few villages will have a
rate of over ten mills. There are
two that may have a little higher
rate than ten, but many will not
have as high. The rate in the city
of Newark, we think, will be about
12 or 13 mills. Last year the rate
in the townships varied from about
16 to 27 mills, while in the city and
villages the range was from 22 to
38 mills. The rate this year in many
cases will not be more than one-third
of what it was last year. You can be
sure that your rate will be low.

Now, if you have been laboring un-
der a mistaken notion as to this
matter, we will be glad to have you
call at the Auditor's office and cor-
rect your returns. If you care to
have a private conference we will be
glad to talk with you and will keep
the matter strictly confidential. If
you can give us any hint as to any
property that is not listed or help in
any way to bring about a good en-
listment of property, we will treat
what you tell us as strictly confiden-
tial if you desire.

All persons who have for any reason
made an incomplete return of
their property may correct the same
without having the fifty per cent
penalty added. Penalties are to be
added only when persons fail or re-
fuse to return their own property.
We appeal to all good citizens and
lovers of good government to help
us to secure a complete enlistment
of all kinds of property whatever.
Let us do what we can to properly
equalize the burden of taxation.
When all help, the burden will be
light.
C. L. RILEY,
County Auditor.

SUGGESTIONS FOR WISE BUYING

So many of us would often like to
buy a watch or a diamond who don't
feel quite equal financially to such an
outlay of money all at one time.
Many of us have some one dear to us
to whom we would like to give such
a gift for Christmas but cannot buy
it then along with all the other
things. Haynes Bros., the well
known jewelers of 8 North Park Place,
make a very excellent suggestion of a
way to effect the purchase without
feeling the expenditure. Mr. Haynes
said: "We have just as large a stock
of watches and diamonds as we will
have at Christmas and you have a fine
chance to select. Do this now—pay a
sum down and then a part each week.
You'll be surprised how quickly you
get it paid for without missing the
money."

Christmas is not so many weeks
away, and it would be well to make
that purchase now. 14-15-18

VARIOUS POSTAL BILLS PROMISED

Parcels Post Will Be Taken Up at Next Session

SAVINGS BANKS SUCCESSFUL

This Will Lead to Many Other Efforts
at Legislation on Postoffice Affairs.
Letter From Postmaster General
Concerning Rates For Transporting
Mail in Demand, but Can't Be Had.

By ARTHUR W. DUNN.

Washington, Sept. 14.—[Special.]—
Postal legislation of much importance
seems assured from the activity of
different men connected with the serv-
ice. The good results from postal sav-
ings banks is being made the basis of
urging other postal reforms.

Chairman Bourne of the senate com-
mittee expects to take hold of the
parcels post bill immediately. In fact,
he has been looking up data since the
extra session closed and will have
everything ready to present a bill
when the regular session meets. The
house committee has already had its
hearings on this subject, while the ex-
penditures committee is laying the
foundation for several postal bills.

"House Doc. 105."

On Aug. 13 the Congressional Rec-
ord announced among the executive
communications "a letter from the
postmaster general, submitting a re-
port of the results of the inquiry as to
the operation, receipts and expendi-
tures of railroad companies transport-
ing the mails and recommending leg-
islation on the subject (H. Doc. 105)
to the committee on postoffices and
post roads and ordered to be printed."
Ever since that date there have been
anxious inquiries at the document
rooms for "H. Doc. 105," but after a
month since its receipt it cannot be
obtained.

"The proof is being read at the post-
office department." Inquiries are told.
It is this document upon which Post-
master General Hitchcock based his
assertion that \$1,000,000 could be
saved in the transportation of the
mails, and there are a lot of people
who want to see just how he figures
out the saving.

Promised Progress.

Both of the Virginia senators who
have been renominated, as well as
their opponents in the primaries, de-
clared themselves earnestly in favor
of progressive policies. During the
close of the last session of congress
Senator Martin became earnestly in
favor of the tariff measures presented
and said that congress ought to re-
main in session all summer in order to
pass the tariff bills.

Senator Swanson has declared him-
self favorable to the nomination of
Governor Wilson for president, the
New Jersey governor being about the
most earnest progressive among the
Democratic possibilities. It is believed
that many so called conservative sena-
tors will be supporting progressive leg-
islation in the future.

Can Uncle Joe "Come Back?"

Of course Uncle Joe Cannon can be
elected to congress in the Danville
district as long as he lives. He has
become a habit with those Illinois
people. But the announcement that
he expects to be speaker if the Repub-
licans should gain control of the house
is most interesting, and the question
naturally arises as to whether the
old warhorse can "come back."

What would become of Jim Mann,
who has made a very satisfactory mi-
nority leader? And can the Repub-
licans control the house without the
insurgents? These are questions
which the recent announcement causes.
The impression in Washington is that
Uncle Joe's late golf experience has
turned his head.

Waterway Terminals.

It was Herbert Knox Smith, com-
missioner of corporations, who, in a
very able manner, pointed out that
one reason why waterway traffic in
this country suffered was on account
of lack of terminals. This applied es-
pecially to inland waterways. Grad-
ually the idea is sinking in upon those
who have interested themselves in wa-
ter transportation and more particu-
larly those who are working for a
larger system of improvements by the
general government. The waterway
terminals on most of the rivers are
not such as to encourage water traffic.
States or municipalities will have to
take up the subject, for it is certain
the general government will not con-
struct terminals.

Texas Are Pleased.

Among the Texas members who il-
lured in Washington for several weeks
after the adjournment was Congress-
man Smith. He is an anti-Bailey man
and was well pleased when he heard
that Bailey had withdrawn from the
senatorial race.

"That will be welcome news to many
people in Texas," he said, "for they
are getting very tired of the Bailey
and anti-Bailey contest which has been
going on year after year."

Congressman Smith thinks that
Bailey will make Washington his
home, as he is building a large resi-
dence here but it is generally believed
that Bailey's retirement from politics
is permanent. That he will be missed
in the senate is conceded, for he was
always interesting. Strangely enough,
he will be missed more by Republicans
than by his own party.

We have told the story of our Boys' Clothes so
often in all the leading magazines and other publica-
tions, that it seems as though every mother in the land
must know their merits.

It's not necessary for us to tell you how much bet-
ter they are than other clothes if you have tried them.
But if you haven't, we want you to know the facts, we
wish to induce you to buy them the first time. After that
you will not have to be urged.

More than five million boys have worn them. Thou-
sands of mothers have been pleased with the reasonable
price, style, extra wear and durability of our clothes.

Most boys' clothes are hurriedly made, of cheap ma-
terial, with little attention paid to fit and style. It's al-
most impossible for you to judge the quality of the wool-
ens now days when mills so skillfully mix cotton, wool
and shoddy together.

What are you to do? First, avoid buying clothes
that little or nothing is heard about; second, buy what
has been a known standard for years and is guaranteed
fully by the manufacturer and the retailer who sells it.
Look for our label on the clothes,

REFUSED AN INCREASE TO CITY OFFICIALS

Salary Ordinance for Granville Failed of Passage—Fall Semester Opens at Denison.

Granville, Sept. 14.—The village council met Wednesday night in adjourned session with Members Ferguson, Perry, Partridge, Rusler present, with Mayor J. M. Jones in the chair. The minutes of the August 1 and 24 meetings were read by the clerk and approved. The reports of the board of public affairs and the treasurer and clerk were read and approved. The bond of Mayor J. M. Jones was read by the clerk and approved. On motion W. A. Rusler was elected president of the council until January 1, 1912.

An ordinance providing for the increase in the salary of the members of the council and board of public affairs from \$1 to \$2 per meeting, not to exceed 12 regular meetings in a year, and also to increase the salary of the clerk to \$150 per year was second. The ordinance was placed on its second and third readings and on a vote being taken on its passage was lost by 4 to 1.

The regular finance ordinance was passed under a suspension of the rules.

The mayor was empowered to employ an attorney to look into the matter of the gas company furnishing free gas for the light and water plant, and also to draft an ordinance or resolution looking to the purchase or installation of a gas plant for the village of Granville, the proposition to be voted on by the people of the village at the regular election to be held in November. Council adjourned to convene at the call of the mayor.

The doors of Denison University were thrown open Thursday morning for the fall semester, and through them filed the long lines of young men and women led to begin their studies for another term. The majority of the students have returned and Wednesday was an exceedingly busy day for the registrar. New students were registered on Wednesday and these with the old ones that are being registered will bring the attendance up to high water mark. When all have registered it is thought that there will be a large increase in the number of students, both in Denison and Sheppardson. Preliminary class work was assigned today, and everything will be in good shape and running smoothly by the first of next week, for it will require several days for the students to shake off the lethargy of vacation and get down to real work. Altogether the outlook for Denison is very bright.

Guy Case and family attended the home coming in Steubenville.

Miss Marjory Williams of Rochester, Indiana, who graduated from Denison several years ago, left Wednesday for Porto Rico, where she has accepted a

position as teacher in the public schools of that place.

Mr. and Mrs. G. B. Marker of Indianapolis, who have been visiting here for a few days, have returned home, after having had a most delightful visit.

FOR CONSTIPATION

A Medicine That Does Not Cost Anything Unless It Satisfies.

The active, medicinal ingredients of Rexall Orderlies, which is odorless, tasteless and colorless, is an entirely new discovery. Combined with other valuable ingredients, it forms a perfect bowel regulator, intestinal invigorator and strengthener. Rexall Orderlies are eaten like candy and are notable for their agreeableness to the palate and gentleness of action. They do not cause griping or any disagreeable effect or inconvenience.

Unlike other preparations for a like purpose, they do not create a habit, but instead they overcome the cause of habit acquired through the use of ordinary laxatives, cathartics and harsh physic, and permanently remove the cause of constipation or irregular bowel action.

We will refund your money without argument if they do not do as we say they will. Three sizes, 50c., 25c and 10c. Sold only at our store—The Rexall Store, Hall's Drug Store, 10 North Side Square.

OF SERVICE

To Columbus and Central Ohio is the Buckeye State Building & Loan Co., Rankin Building, 22 West Gay Street, for it takes good care of people's money and pays them five per cent for its use. It in turn loans this money at six per cent on first mortgages on homes, the safest of all mortgage loans. Such service is fair both to borrowers and depositors. Assets \$4,900,000.

KILLS SELF FOR LOVE OF FLOWERS

Cincinnati, Sept. 14.—Because rheumatism made it impossible for him to be among his beloved flowers, Adam Fischer, a florist of Spring Grove avenue this city, hanged himself to a rafter in his uncle's barn. Fischer's life among his moist, flower beds brought on the rheumatism, his physician said. He was ordered to give up the culture of his pets, but could not do so. The pains in his body began to grow worse, finally unsupportable, and he ended his life. Fischer was at one time florist at the National Soldiers' Home at Dayton.

CHILDREN'S HOME NOW HAS FIFTY PUPILS

Licking County Institution Has Every Convenience for Care of Little Ones.

The school session at the Licking County Children's Home, east of the city, opened with an enrollment of 50 pupils. There are 62 children in the home, but 12 of this number have not reached the school age.

To the casual observer the Children's Home is rather an indefinite term, suggesting simply an institution where a number of orphans are cared for, but a visit to the local home reveals a very complete plant where every convenience is provided for the proper care of the county's wards.

The school at the home is much the same as a large room in one of the city buildings, except that children of all grades are taught by a single teacher. The hours of instruction are from 8:30 to 11 in the morning and from 12:45 until 3 in the afternoon. The very small boys and girls are given a short recess both in the morning and afternoon. The text books used in the school are much the same as those in service in the city schools.

A trip through the building reveals a very complete system and a wonderful degree of order and cleanliness. In the dining halls and dormitories one is struck with the order and with the spotless linen of table and beds. The Home has a complete laundry on the grounds, consisting of washer, extractor and mangle, and here the washing and ironing of all the children is done. Wash days are Monday and Thursday.

In the basement of the building the visitor finds vegetable cellars, fruit rooms, a scale room, a milk room and a bakery. All the available room is employed to good use, and everywhere is found the evidence of care and attention to healthfulness and order. In the basement also is the kitchen, a great, light, airy room fitted with many conveniences, and everything bright and clean. There are three dining rooms in the building, that of the superintendent, one for the children and one for the employees. The service of the dining room is made by means of dumb waiters from the kitchen to a serving room on the first floor. Boys and girls have separate sitting rooms in which they may gather during recreation hours. These are large, bright rooms, filled with easy chairs and decorated with pictures and numerous potted plants. A very complete hospital room is located in the building and here the sick child may be isolated and given proper attention, but owing to the almost ideal healthful condition of the Home, this is little used.

In the upper corridors of the building chutes are provided for conveying soiled linen to the basement and separate chutes for the disposal of rubbish and sweepings.

Everywhere throughout the grounds and buildings may be seen evidences of careful management and attention to details and everywhere the results of the watchword, "Cleanliness and care in all things."

Supt. and Mrs. J. C. Krieg and their corps of assistants are to be congratulated for the splendid condition in which the Home is always kept and for the excellent administration of its affairs.

What every painter knows

PUT AURORA UP TO ANY PRACTICAL PAINTER.

He can "size it up" by the first few sweeps of the brush.

There's a certain "feel" to a paint that contains just the right amount of pure lead and linseed oil scientifically mixed with the proper inert pigments. This "feel" he quickly recognizes in Aurora. It can be brushed out like pure lead and will cover solidly—doesn't have to be thrown on.

Aurora Mixed Paint

Is made for men who know a good paint. It is practical. Made by men who know how to use paint as well as make it; by men who have studied wood surfaces for years; who stop at no expense to gain a point for paint improvement.

Aurora is a long lasting, good looking paint for general outdoor use. But we make paints for special uses. Steamboat, Wagon, Carriage,

Railroad Paints, each perfectly adapted to the work for which it is designed.

Manufacturers who have products that must be painted: where a certain effect is required within certain cost limits, will do well to turn the problem over to us. Producing surface affinities is our forte; solving problems of paint efficiency—and economy—is our long suit.

INJURED WHILE CUTTING CORN

Leroy West, a young man employed at the American Bottle plant, who lives with his parents at the corner of Stevens and Leroy streets, had the misfortune to meet with an accident Thursday morning which resulted in his receiving a severe injury. He was cutting corn when he was struck on the left leg by the cutter, inflicting an ugly wound which bled freely. A jury call brought Drs. Cosner & Murphy, who took the injured man to their office, where the injury was attended to, and the indications are that he will make a quick recovery unless unforeseen complications arise.

COMET NEAR POLE STAR.

Minneapolis, Sept. 14.—Professor Francis P. Leavenworth, head of the department of astronomy of the State University, has sighted the Brooks comet, recently discovered. He says the comet is now visible to the naked eye in the early evening, near the pole star. It will never be visible again, he says.

OHIO ELECTRIC TO BUILD A NEW FREIGHT HOUSE

According to the State Journal, the Ohio Electric Railway company will soon let a contract for the erection of a new freight house on Town street in Columbus. The new building will be 40x160 feet in size and will front on Town street. It will be constructed of steel, concrete and brick. Up to this time no announcement has been made that a freight house is to be built in Newark and the company is still using the Church street spur tracks as a freight house.

Baby's Voice

Every woman's heart responds to the charm and sweetness of a baby's voice, because nature intended her for motherhood. But even the loving nature of a mother shrinks from the ordeal because such a time is regarded as a period of suffering and danger. Women who use Mother's Friend are saved much discomfort and suffering, and their systems, being thoroughly prepared by this great remedy, are in a healthy condition to meet the time with the least possible suffering and danger. Mother's Friend is recommended only for the relief and comfort of expectant mothers; it is in no sense a remedy for various ills, but its many years of success, and the thousands of endorsements received from women who have used it are a guarantee of the benefit to be derived from its use. This remedy does not accomplish wonders but simply assists nature to perfect its work. Mother's Friend allays nausea, prevents caking of the breasts, and in every way contributes to strong, healthy motherhood. Mother's Friend is sold at drug stores. Write for our free book for expectant mothers.

A Friendly Suggestion

often puts the wanderer on the right path.

Thousands of former coffee drinkers are now healthier and happier because some friend suggested

POSTUM

in place of coffee

Headache, nervousness and other annoying ills, due to coffee drinking, quickly disappear when Postum becomes the regular table beverage instead of coffee.

"There's a Reason" for

POSTUM

Postum Cereal Co., Ltd., Battle Creek, Mich.

KNOWS HOW.

Doctor Had Been Over the Road.

When a doctor, who has been the victim of the coffee habit, cures himself by leaving off coffee and taking Postum he knows something about what he is advising in that line.

A good old doctor in Ohio, who had at one time been the victim of the coffee habit, advised a woman to leave off coffee and take on Postum.

She suffered from indigestion and a weak and irregular heart and general nervous condition. She thought that it would be difficult to stop coffee abruptly.

She says:

"I had considerable hesitancy about making the change. The doctor, however, gave explicit directions that Postum must be boiled long enough to bring out the flavour and food value. His suggestions were carried out and the delicious beverage fascinates me."

"I observed, a short time after starting Postum, a decided change in my nervous system. I could sleep soundly, and my brain was more active. My complexion became clear and rosy, whereas it had been muddy and spotted before; in fact, all of the abnormal symptoms disappeared and I am now feeling perfectly well."

"Another friend was troubled in much the same manner as I, and she has recovered from her heart and stomach trouble by leaving on coffee and taking Postum."

"I know of several others who have had much the same experience. It is only necessary that Postum be well boiled and it wins its own way."

OBITUARY

GEORGE DAVIS.

George Davis was born on the Davis homestead, in Licking township, Licking county, Ohio, Nov. 16, 1834, and died in his home at Hebron, Ohio, Sept. 8, 1911, at the age of 76 years, 9 months and 22 days. He had five brothers and three sisters. One brother, Mr. Joseph Davis, and one sister, Mrs. Rebecca Jarry, survive him, four brothers and two sisters having preceded him to the spirit world.

April 15, 1897, he was married to Mrs. Laura Justice. While this union was not blessed with any children, yet the deceased was ever a lover of children and young people, and was much devoted to the children of his near relatives and especially to his stepson, Frank Justice, for whom he cared as though he were his own child. He was a man of great filial affection, and always cherished most sacredly the memory of his father and especially of his mother. As a husband he was always kind and devoted. Through all his life he was a man of business. By his energy and thrift he developed, improved and successfully financed one of the best farms in Licking county. A stalwart and upright citizen, he always had the respect of his fellow men. He was an obliging neighbor, with such genial disposition that he made many friends. He interested himself in the welfare of laboring men and was liberal in his charity for the worthy poor.

Religiously he was brought up in the faith of the Old School Baptist church. He believed in God and the Bible; had great respect for the church and Christian people; often attended divine services and manifested an interest therein.

The end came to him suddenly and quite unexpectedly after a brief illness of but one short week, his last moments being very quiet and peaceful.

He leaves his wife and stepson, one brother, one sister, many other relatives and hosts of friends to mourn.

His funeral services were held in the Fairmount Presbyterian church, and were conducted by his wife's pastor, Rev. J. R. Tibbles of Hebron, Ohio, and were attended by a very large congregation of sympathizing relatives and friends. His body was laid to rest in the Fairmount cemetery.

JOHN R. TIBBLES.

FUNERAL OF PETER MILLER.

The funeral services over the remains of Peter Miller, who died at his home in Zanesville on Monday evening, were held at his late home in that city Thursday afternoon, the Rev. Mr. Kamphausen officiating. The interment was made in Greenwood cemetery. The deceased was

Daddy's Bedtime Story

The Colt That Played Practical Jokes

"EVELYN was trying to ride old Dobbin today out in the meadow," said Jack.

"And I fell off three times," added Evelyn.

"Dobbin almost laughed, she looked so funny," chuckled Jack.

"I didn't look funny, either," objected Evelyn. "Horses can't laugh, anyway, can they daddy?"

"Well, I've never heard so," said daddy, "but I can tell you a story about a colt that loved to play practical jokes. This colt's name was Bill. His master was a doctor.

"When Bill was old enough to be left alone, I am sorry to say, he very often got into mischief. At first, when they put him in the barn, they did not like to tie him up as they did the older horses. But Bill went about upsetting things, pulling down harness from the wall and poking his nose into everything. It was at last thought better to leave Bill out in the field at nights during the summer.

"Now, my friend the doctor had a little boy named Robbie, and Bill was given to him. Robbie loved his colt and never failed to see that he had water and got his meals, but there was one thing Robbie very often forgot—that was to shut the gate of the field in which Bill was kept.

"Chicken thieves had been in that neighborhood, when one night a great squawking was heard in the hen yard. The doctor jumped out and grabbed his gun, the doctor's wife following him to the door, begging him to be careful. Robbie and his sister and the hired girl poked their heads out of the upstairs windows to see what was going to happen.

"When the doctor got down they could hear him scolding at some one in the chicken house.

"Come out here. Hey, you! Back up!" he cried.

"There was a whinny and a stamping of feet, and out came Bill.

"Robbie had left not only the gate of the field but the hen house door open. Bill in his rambles, seeing the open door, had gone in and was amusing himself by pulling the chickens off their perches. He would seize the tail feathers of a chicken in his mouth, haul it off the perch before it knew what had happened and toss the cackling and squawking fowl outside into the yard.

"The doctor afterward said he had never seen a colt enjoy himself more, and I am sure I have never seen a man enjoy himself more than the doctor seemed to do when he was telling this yarn."

DIEGEL IS IN DAYTON WITH EGAN

Dayton, Sept. 14.—Rodney J. Diegel is found. The cloud of mystery which has hung over the operations of the big sergeant-at-arms of the Ohio senate, convicted of acting as a go-between in legislative bribery deals and under sentence of three years to the penitentiary, was dispelled last night when he was met face to face in the southern outskirts of Dayton.

The bold, almost swaggering walk of the big man gave him away. There was no mistaking the man. The flickering shadows lingered long enough to make his observer sure of his quarry. When addressed, Diegel hastened his stride. A volley of questions fired at him brought no response. Suddenly he turned and entered a darkened house and the door slammed in the face of his follower.

Diegel's presence in Dayton, together with the absence from his office of his personal attorney, John Egan, is taken as a confirmation of the rumor that Egan and Diegel are working together in seclusion, preparing a statement of Diegel's knowledge of legislative affairs, which will be presented to the state at the last moment before his stay of execution of sentence expires.

BOIL WATER IS THE ADVICE OF HEALTH OFFICER

Boil the water!
This is the latest advice from the health department on the typhoid fever situation. No new cases have developed in the past two or three days, but those under suspicion have almost in every case been pronounced unquestionably typhoid.

Dr. Knauss, in conversation with the Advocate, stated that while the situation at present did not indicate that the infection would spread any further, it was his advice to boil all water used for drinking purposes, particularly if the water used is from a well.

Many of the cases are not serious, but some are very ill from the disease.

OPEN SEASON FOR SQUIRREL FEW HOURS OFF

The open season for squirrel dawns tomorrow, and local devotees of the rifle and shot gun are making extensive preparations for an enjoyable day in the woods in quest of the little animal of the trees. According to reports from over the county squirrels are a little more plentiful this year than usual, though they are still regarded as being quite scarce.

The Ohio state game law permits their slaughter between September 15 to October 20 and the hunter is prohibited to kill more than five in a day's hunt. Not many of the gunners pay strict attention to this section of the statute if they are fortunate enough to get into the woods where the hunting is good.

Local dealers in guns and ammunition report a fairly good sale of both shells and guns. More rifles are to be used this year than ever before according to one dealer.

"We have sold an unusually large number of rifles during the past week or two," said the dealer. "It seems that the hunters who go after squirrel have decided that the rifle is the best after all and they get more satisfaction both from their marksmanship and from the game after it is killed."

"A shot gun with a choke bore renders the small squirrel almost useless for food and besides that, the better hunters say 'any one can kill a squirrel with a shot gun.' There is more satisfaction to the real sportsman to hunt squirrel with a rifle."

Don't forget the Wolga-Moran world's championship light weight contest pictures at Empire theatre Thursday and Friday. 14d1

Somerset Smith vs. John H. Hawley, case continued on account of indisposition of counsel. The suit is to determine the location of the line between the farms of the parties in the western part of this county.

L. Hedrick vs. L. J. Hedrick, judgment of common pleas affirmed. The following cases were argued and submitted: Webb vs. Miller, Wharton vs. Grubb, Goff vs. Disbennett, Traxler vs. B. & O. R. R. Co., Johnson vs. same, Shamp vs. State ex rel. Schnadt, Cripps vs. Burkholder, Mead vs. Brown.

POPE JOKED OVER RECENT ILLNESS

Rome, Sept. 14.—Manager Kennedy, rector of the American College at Rome, was the first American prelate to be received by the pope since his illness. He found his holiness bright and cheerful and really vigorous considering his age. The pope walked about his room with an elastic step and had good color and clear eyes. He showed no sign of fatigue and was inclined to joke about his recent indisposition, the reports of which he insisted had been exaggerated.

ENDS STOMACH TROUBLE AND INDIGESTION

Take your sour, out-of-order stomach—or maybe you call it indigestion, Dyspepsia, Gastritis or Catarrh of Stomach; it doesn't matter—take your stomach trouble right with you to your Pharmacist and ask him to open a 50-cent case of Pope's Diapiesin and let you eat one 22 grain Triangule and see if within five minutes there is left any trace of your former misery.

The correct name for your trouble is Food Fermentation—food souring; the Digestive organs become weak, there is lack of gastric juice; your food is only half digested, and you become affected with loss of appetite, pressure and fullness after eating, vomiting, nausea, heartburn, griping in bowels, tenderness in the pit of stomach, bad taste in mouth, constipation, pain in limbs, sleeplessness, belching of gas, biliousness, sick headache, nervousness, dizziness or many other similar symptoms.

If your appetite is fickle and nothing tempts you, or you belch gas, or if you feel bloated after eating, or your food lies like a lump of lead on your stomach, you can make up your mind that at the bottom of all this there is but one cause—fermentation of undigested food.

Prove to yourself in five minutes that your stomach is as good as any; that there is nothing really wrong. Stop this fermentation and begin eating what you want without fear of discomfort or misery.

Almost instant relief is waiting for you. It is merely a matter of how soon you take a little Diapiesin.

INJURED IN ATTEMPT TO BOARD TRAIN

While attempting to board a rapidly moving freight train at the Fifth street crossing late Wednesday afternoon, Julius Aman of Pittsburg was hurled to the ground alongside the track and badly injured. He was bruised about the head and shoulders and suffered a fracture of a small bone in the left ankle.

The accident was witnessed by road employees and when it was found that the man was unable to care for himself, the patrol wagon was called and he was hurried to the City Hospital where an examination developed the injuries mentioned above.

According to Aman's story, his home is in Pittsburg and he left that city in search of work. He was enroute to a point in Illinois where he had been previously employed and where he hoped to get work again.

He is a man about 50 or 60 years old, was nicely dressed and it was apparent that his story regarding his effort to secure employment is true.

He will be confined to the hospital for some time before he will be able to proceed on his journey, owing to the fractured bone in his ankle.

ALL LOTS SOLD AT SUMMERLAND

More than 500 Columbus people went by free special over the T. and O. C. railway to the auction of lots at Summerland Beach, Buckeye Lake, Tuesday. There were about 100 choice sites for sale and all of these were disposed of by the persuasive real estate auctioneer, Thomas Wilson.

The lot sale began at 11 o'clock, two hours after the special train left Columbus, and was attended by scores of people from near Buckeye Lake, as well as the Columbus contingent. The Millersport band furnished music throughout the day, and at noon a big country dinner was served in the beach auditorium.

The lots were all sold by 5 o'clock, and an hour and a half later the Columbus party returned.

GRAND JURY IS INVESTIGATING CASE

Coshocton, Sept. 14.—The Coshocton county grand jury is investigating a sensational assault case brought to its attention from the village of West Lafayette. According to the stories from that town, one woman assaulted her fair neighbor, using a baseball bat with telling effect. The victim was badly injured. A large number of bootleg cases are also being investigated by the grand jury.

A PENNY EARNED.

Ever notice how some folks skrimp? Yet they go on using strong, greasy, yellow soap full of rosin and lye. They waste more than they can save. How-it's Easy Task Laundry Soap is a real saving. It gets out the dirt in half the time, and so white and pure it can't injure the finest fabrics. Still it costs no more than the harmful imitations. Ask any good grocer.

DIED SUDDENLY WHILE WAITING FOR TRAIN HOME

Coshocton, O., Sept. 14.—While waiting for a train at Jacksonville, Fla., which was to take his parents and himself to their new home, John William Mulvane, son of Mr. and Mrs. R. H. Mulvane, former Coshocton county people, died suddenly of heart trouble. Instead of proceeding to the new home, the family brought the body of the boy to Coshocton county for burial.

MANY DIVORCES AND MARRIAGES

Statistics Show That of the 45,294 Couples Married During the Year, One-Third Secured Divorces.

Statistics compiled in Columbus show that while 15,294 couples were succumbing to Cupid's wiles during the year ending March 31, 1911, in the state of Ohio, 14,501, or nearly one-third of that number, were either granted, refused or applying for divorces, according to statistics made public by Secretary of State Graves.

Cuyahoga county led in both the number of marriages and divorces, having 7,200 of the former, and 2,987 of the latter. Hamilton followed with 4,344 matches and 1,065 divorces; Franklin had only 2,411 marriages against 1,370 divorces, making the latter's business and the divorce courts work nearly a stand-off. Lucas county issued 1,441 licenses against 983 divorces and Summit had 1,111 weddings and but 371 divorces.

Ohio obtained 839 new voters naturalization. Cuyahoga county leading with 632. Not a foreigner was naturalized in Hamilton county, Lucas naturalized 106, Franklin forty-eight, and Summit, fifty-three.

COSHOCTON MEN WILL FIGHT THE AIKEN ASSESSMENT

Coshocton, Sept. 14.—Attorneys from Coshocton will take up a fight in the Circuit court, which convened at Newark this week, to make a test case of the Aiken Liquor Tax assessment against Coshocton violators of the Rose law. Attorneys J. C. Adams and ex-Prosecutor Jos. L. McDowell have been retained by eight Coshocton men who have been assessed for the Aiken tax. An alternative writ of mandamus against County Treasurer George Stillinger was filed late yesterday and a decision in the matter is expected when the court convenes in Coshocton next October. Common Pleas Judge Nichols held in a decision a few weeks ago that he men could not recover while Attorney General Hogan in an opinion held that if the business was discontinued the men could get a refund on the Aiken tax which they paid. The suit against a man named Elson is to be made a test case.

AVIATOR MEETS DEATH IN OHIO

Cincinnati, Sept. 14.—While rowing across the Ohio river last night, George Bridges, aged 32, a New York aviator, was drowned when his skiff was struck by a towboat and demolished. Bridges was employed by the Aero Exhibition Company of New York and for the last few days has been assembling parts of a flying machine broken during the flights in celebration of the Fernbank dam last week. He was returning with parts of it across the river when he met his death. His wife, a woman aviator, now in Kalamazoo, Mich., was notified of his death.

MANY CASES OF TYPHOID FEVER IN COSHOCTON

Coshocton, Sept. 14.—According to reports made to the local board of health, there are more cases of typhoid fever in this county than have been reported for years. The cases are so well scattered over the county that the officials state that the prevalence of the disease has not taken the proportions yet of an epidemic. They state that the prolonged drought caused the typhus germs to breed rapidly and the recent heavy rains have developed the fever cases. They have advised that all water which is likely to become contaminated with surface water, be boiled before used for drinking purposes. The number of cases in the county is greater than those reported within the city.

LEAVES POSTAL SERVICE FOR A LIFE ON FARM

Charles Mears, formerly of Johnstown and Croton, who has been employed in the postoffice at Mt. Vernon as clerk for several years, will leave the service this month and move to a farm in Muskingum county. The farm was a present to Mr. Mears from his father, the deed having been presented to him a short time ago and he stated that he thought he would be unwise to continue in the service of Uncle Sam with a good farm to live upon. While in the service, Mr. Mears by close application to his duties earned rapid promotion and at the time of his retirement from the office he was filling one of the most important clerical positions, that of dispatching the mail.

To The Women

Some women are just a trifle timid about going to a bank to transact business. And why? Simply because they are not familiar with the rules of banking. This shouldn't be so, and, indeed, this isn't so with those who come to this bank, for we aim to make every transaction so clear and so plain, that dealing with a bank soon becomes to them an easy habit.

We appreciate the patronage of women. Their business with us is already large and steadily increasing. If you are not now a patron, then please consider this invitation to become one.
